- Advisory Board: Terms of Reference & NDA
- Year1 plan

FINANCE UPDATE

Earlier the Project Management Office announced that we were expecting each partner to deliver an annual report from project start until December 2018 i.e. 3 months. The IFD now have relaxed this requirement, meaning that the first annual reporting including auditor's certificate if needed should cover the period from project start and until December 2019 i.e. 15 months. The deadline for this report is March 31st 2020.

The Project Office is still working with the financial reports to make us able to deliver monthly financial feedback to the WP / Task leaders and to the partners, as this is the only way to secure that INCOM is delivering within the agreed frames. This need is now exaggerated by the now rather long period before the first annual reporting is due.
