

INCOM NEWSLETTER 30; FRIDAY JANUARY 31ST 2020

OVERVIEW OF AU AND DTU RESEARCH FOCUS AREAS

One of the purposes of INCOM is to increase the knowledge among the partners about what is going on within the partners. In line with this, it might be inspiring for the industrial partners to have a look at Aarhus University and DTU Fotonik's homepages, describing the research areas for our two academic partners. Please have a look and feel free to forward questions to the heads of the partner groups Jens Kargaard Madsen and Lars-Ulrik Aaen Andersen.

YEAR 2 PLAN

The PMO has received all the requested Y2 plans from the Task Leaders and a complete Y2 plan has now been presented for the Preparatory Committee and will be presented for the Steering Committee at their meeting in April and seek for their approval.

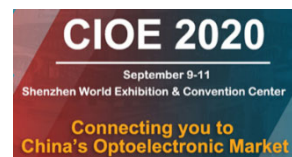

AFTER HOUR SHORT-MEETINGS

We are happy to invite you to the first After Hour Short-meeting, February 27th at [Zeuxion](#) in Værløse. The meeting will feature a short presentation of Zeuxion followed by a speech about recruitment and how to attract the right competences to an industry of next generation energy efficient and high capacity products and solutions for the communication infrastructure. Most importantly, the meeting will start and end with drinks and light bites :-)

CIOE 2020 | SEPTEMBER 9-11 IN SHENZHEN

The world's leading exhibition in optoelectronic and photonic industry, CIOE is taking place in China, September 9-11, 2020 and [Alight Technologies](#) is usually arranging a Danish Pavilion where optionally INCOM partners could join. INCOM partner Bifrost Communications has participated with great success previously and will do again. The event presents the entire supply chain and nearly 2,000+ photonic players will display their cutting-edge products and technologies. It is one ideal platform to find new suppliers, to source for new products, to exchange technical thoughts, and to discover more market opportunities. INCOM PMO will soon forward more information about the CIOE Danish Pavilion for the partners to consider. Link to exhibition organizer [here](#).

PREPARATORY COMMITTEE MEETING

The monthly meeting took place Wednesday, January 29th and the Annual IFD Report, INCOM Spring Event 2020, and After Hour Short-meetings were some of the items discussed.
